Aug 10, 2026, 7:40 PM	Symptom	Regurgitation · 1 – Very mild <i>After coming down from the chair</i>
Aug 10, 2026, 8:00 PM	Temperature	38.4 °C

Pet profile & health notes

Chronic conditions: Megaesophagus

How they drink: Thickened water, offered in the chair. Plain water comes straight back up.

Important notes: Congenital idiopathic megaesophagus, diagnosed at five months. Fed upright in a Bailey chair, 20 minutes sitting after every meal. One episode of aspiration pneumonia. Weight recovering since the feeding routine changed.

This report contains user-entered data and is intended as a discussion aid for veterinary visits only. It is not a clinical record and does not constitute medical evidence.
